ADVENTURE AND SCIENCE

Football is not the purpose of this project - it is only a mean in achieving the creation of the atmosphere of mutual respect for cultural values. Football gives us a great opportunity to meet each other at a given time and place, to mutually in the most substantial way explore Gdynia, its sea and Kashubian roots and build a correct attitude towards each other, regardless of core values, color or environment manners used daily in our families.

IDEA OF THE PROJECT

ARKA GDYNIA CUP

Football tournament means for us more than a game, it is education through sport. Elements of maritime education and generally understood as a social education, for us - the organizers - are priorities! The competition is being held at the professional fields, and both integrational and educational offers are making the event very attractive and really useful in the development of social skills of young participants from different parts of Poland and World . In 2018, participants of ARKA GDYNIA SUMMER CUP will be also able to watch a live match on TV a part of the FIFA WORLD CUP – RUSSIA'2018.
